Heafband

Oversized Plaid
Shirt
Leather Pants
Black V neck
tshirt

Tshirt
Tube Shirt
Silk Scarf

Proposal

I want to create this website that helps people decide what to wear depending on the style they want to wear in that specific day. This problem is mostly based on people who are indecisive on what they want to wear. To create this I plan to create a website that consists of digital layers and buttons. By pressing a button according to the style you want, the website will take you to another section which lists what pieces of clothing you should wear to create the style pressed.
