RESULTS OF GROUP CRITIQUE   Name of graph author: ___Tulsi___

The purpose of this graph is:

The relationship between family size and survival.

Brief description of the graph (use graph grammar):

Faint underlay of Titanic. with faceted text boxes of information and a graph with supplementary data. Explanations of data given in footnote.

The three most important critique points are:

① Eyes did not know where to start; focus on text rather than graph.

② Could have had more data in graph form.

③ More clear information on families vs. individuals.

CRITIQUE NOTES   Name of person being reviewed: ___Tulsi___

Is this is a self-review? (circle one): yes/ **no**

Layering and separation. Does the submission effectively use layering and separation to distinguish the data representations from supporting elements of the graph? Is the eye drawn to what matters most?

Graphical perception. Is the typical consumer of the graph able to easily and accurately perceive the data?

Color and aesthetics. Is the use of color (if applicable) effective? Is the graph designed well?

Documentation and presentation. Is the image of high quality and without distortions? Does the image include sufficient documentation? Is everything spelled correctly and grammatically correct?

<u>Notes and Feedback</u>:

Immediate understanding of information topic without being overwhelming.

Overall effectiveness of this graph (circle one):
1   2   3   4   5   6   7   8   (**9**)   10
ineffective   extremely effective

Color and aesthetics. Is the use of color (if applicable) effective? Is the graph designed well?

Documentation and presentation. Is the image of high quality and without distortions? Does the image include sufficient documentation? Is everything spelled correctly and grammatically correct?

<u>Notes and Feedback:</u>

→ Good layering. The grid is well laid out. The Visual is clearly separated from the supporting elements

→ ~~~~~~ Uses grayscale. Simple and clean. No need for color. Feels like a newspaper. The graph is easy to read.

→ Thorough documentation. Would be interested in how many total families, how many total single passengers without being overwhelmed

→ I learned a lot

→ Spelling / grammar good.

→ High quality w/o distortion

Overall effectiveness of this graph (circle one):

1   2   3   4   5   6   7   (8)   9   10

ineffective   extremely effective

Notes and Feedback:

* The facts and figures too bold in color
* Too Busy - maybe a little less information as readers find it hard to focus
* Facts don't directly correspond to the data displayed
* space text on graph too small
* was the descriptive language too confusing

* total Families > 1 would have been helpful

Overall effectiveness of this graph (circle one):

1   2   3   4   5   6   (7)   8   9   10

ineffective   extremely effective
